COSPLAY GUIDE
At Guerrilla, we take great pride in our character designs, and we love it when they inspire you to create your own art. Please do not hesitate to reach out if you're planning to cosplay as, or create any other form of art of Seyka or one of the other characters from Horizon Forbidden West.
Seyka is a tenacious and highly skilled marine of the Quen tribe chosen for their expedition across the Great Ocean.

Since a violent storm split the fleet in two and stranded Seyka’s group among the deadly Burning Shores, she has gone above and beyond her duties to keep her people alive.

With much of her group now disappearing among the shores, including her beloved sister, Seyka will stop at nothing to find the lost Quen. But she'll need Aloy’s help to do it.
Seyka has a faint diagonal scar above the bridge of her nose, between her eyebrows. The only make-up she applies is dark eyeliner applied with a short wingtip.
Seyka wears an embellished Focus taken from the body of a dead Diviner. This unthinkable breach of Quen custom shows the lengths to which she is willing to go to find her sister. Her hair is held in a high ponytail by a hairband made from wool and machine parts, adorned with fish leather.

The base layer of Seyka's top is made from a mix of braided, crocheted, and twisted wool. Fish leather is used to create the bodice and collar. Her girdle is made of tough linen rope and held with a machine part.
On her left arm, Seyka wears a bracer and pauldron comprised of machine parts and linen rope. The bracer also includes a fan of jagged sea coral.
On her right arm, Seyka wears a slightly larger pauldron, lower than on her left arm.
