Destruction Tip

So you've just been 360°'d, you're moving the wrong way and you want to know how to get back on track? Simple. Press the L1 button and the R1 button to spin the car round while pressing the CROSS button or the TRIANGLE button to set you in the right direction.

MENU OPTIONS

The Races

There are four styles of race action to choose from, each with its own particular rules and tactics. Decide between Wreckin' Racing, Stock Car Racing, Destruction Derby and Time Trials.

Wrecking' Racing

Takes place on a variety of circuits; and drivers are awarded points for damaging other cars while racing to complete a fixed number of laps.

Stock Car Racing

Quite simply a piece of classic circuit racing. It's a flat out race to the finish with absolutely no points awarded for smashing other drivers. Of course, those other drivers like the Bouncer, the Optician and the Specialist may have something to say about that.

Time Trial

A simple race against the clock that appears at the bottom of the screen in the form of a stopwatch.

Destruction Derby

For the ultimate in fender bending action we suggest you pile straight into the Destruction Derby. And here's how...

Car

You have a choice of vehicles ranging from Rookie to Pro.

Track

There are many different tracks of metal-crushing mayhem to choose from and you will find out what these are as you progress through the Championships. However, there is only one Destruction Derby track: the Bowl. Choose "Destruction Derby" from the race style menu and the Bowl will be selected automatically.

Options

If you want to go to all the trouble of changing the finely tuned controls that we spent months perfecting then this is the choice for you. Selecting this also allows you to tinker with the volume and generally make essential adjustments like ensuring your screen is centered.

THE DESTRUCTION DERBY CODE

When you first try any of the race styles in Destruction Derby, charging around the tracks banging into anything with wheels on will keep you occupied for a while... but to win points and keep your vehicle fairly intact, make sure you follow these simple rules:

1. When being closely followed by an annoying car simply apply your brakes firmly. This will stop the offender promptly in their tracks while causing considerable front end damage to their vehicle.
2. If you find your vehicle being overtaken, turn sideways into the rear corner of the overtaking vehicle. Often results in an impressive spin as your rival driver loses control.
3. Accelerate sharply into the back of a car as it brakes to take a bend. This maneuverer will almost certainly finish with the rammed vehicle taking a nosedive into a wall.
4. Squeezing and ramming other cars sideways into oncoming walls and stationary wreckage is also highly recommended.
5. As you approach another vehicle, wait until you can see the whites of the other driver's eyes then turn sharply so that your vehicle only takes side damage while your opponent's sustains crippling front end damage.
